

BULL IS COMING – (Crypto, and Finance Media)

Introduction

We learnt that many people are looking for a platform where they can get constant crypto updates, happenings in the blockchain world, and how-to. And yes, they are several many blogs out there about cryptocurrency happenings.

But then, we had a thought.

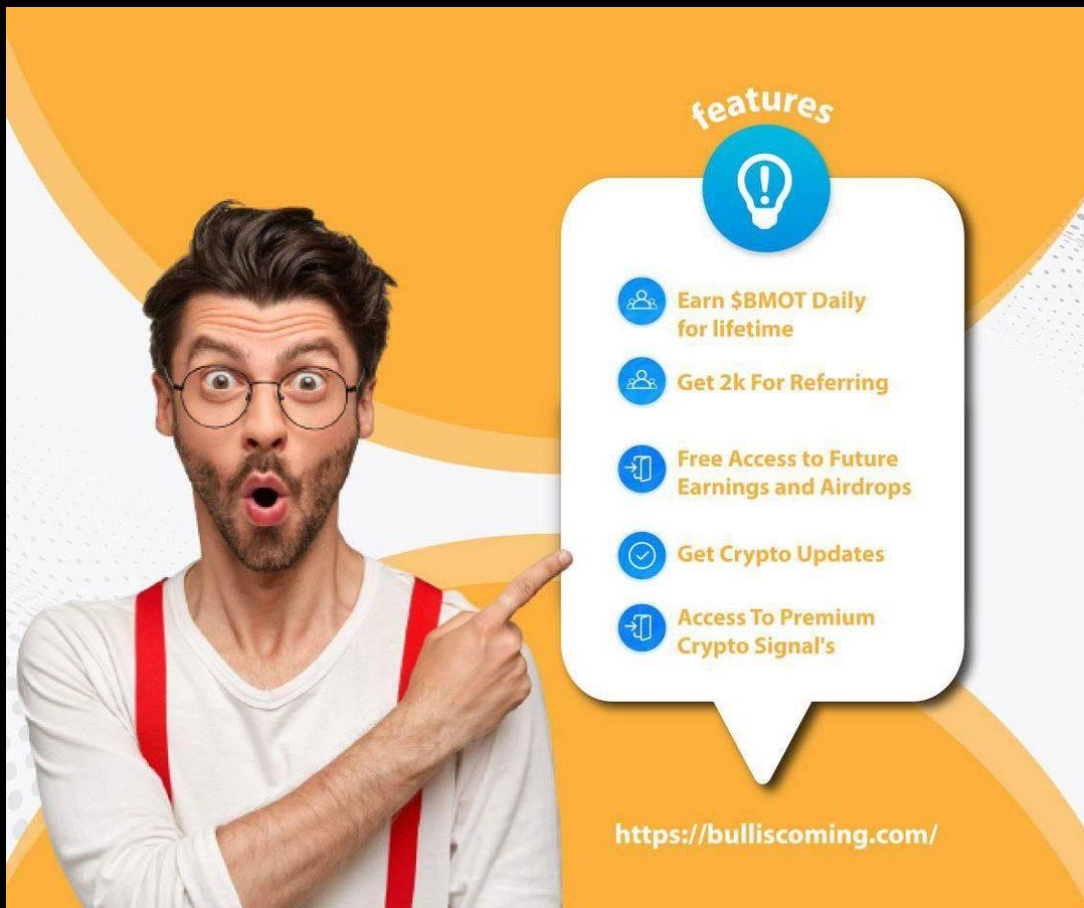

What if people get paid to read about crypto updates, get airdrop opportunities and more just as people get paid to play games (like axie infinity), to surf the internet (like cryptotab browser).

That's was the reason why we decided to transform Bull Is Coming to read and get paid.

Now, we know of several read and get paid project before now, and how they collapsed, but then ours is 100% decentralized because of our token \$BMOT minted on Binance smartchain.

And the income opportunity, transparency of ours is second to none.
